

## **REPORT FROM SISTER DISTRICT**

### **On Our Work in Virginia:**

- The 2025 VA House of Delegates elections are our first critical opportunity to protect our "blue wall" safeguards at the state legislative level after last year's Trump victory. By holding the VA House and turning out voters in key districts, these races could create a powerful reverse coattails effect—boosting turnout for the statewide ticket and paving the way to flip the governor's mansion. A win would not only deliver a blue trifecta in Virginia, ensuring Democrats' progressive legislation are priority, but also set the tone for the 2026 midterms!
- Re: specific metrics -- I would suggest taking a look through our [2023 Impact Report](#), particularly the section "Winning Virginia," (pages 8-10), if you'd like to spotlight some of our accomplishments from the last time we were focused on VA! The impact report is also public-- please feel welcome to share!

- Total postcards sent by SD teams & affiliates: **7,050**
- Michael Feggans' seat was absolutely critical in our victory at the State Legislative level in 2023. His race was one of two that decided the majority for the VA State House, and helped us unite the legislature under Dem leadership. This was a crucial step in the right direction-- the unified Dem legislature blocked GOP-led attempts to restrict abortion in VA, and has been absolutely crucial as a block against the GOP Governor, Glenn Youngkin.
